NOTES

25X1

*India: The Communists' chances of returning to power in the south Indian state of Kerala appear considerably improved as a result of factionalism and a series of scandals afflicting the ruling Congress Party there. The Communists are currently pressing for the resignation of the Congress deputy leader, charging him with immorality and misuse of his cabinet post. Even before this latest development, the Communists appeared likely to win the next elections in the state, which they governed from 1957 to 1959.

25X1

East - West Germany: The volume of interzonal trade in 1963--\$484 million--was the highest since the record level of 1960. Moreover, East Germany has placed long-term orders for heavy industrial equipment for the first time since 1961, and recently concluded 1964 trade agreements with Bonn. In view of its need for imports from West Germany, the GDR has clearly abandoned its efforts to become economically self-sufficient and would probably be reluctant to take any actions which would jeopardize its trade agreements.

Brazil: In conversations with officials of the American and Foreign Power Company (Amforp) in Brazil, Governor Alves of Rio Grande do Norte implied that he is not considering expropriation of the Amforp subsidiary in his state. Earlier this week public demonstrations against Amforp indicated that seizure might be imminent. The governor, who has been in Rio, indicated that he was unaware of the general strike threat against the power company in Natal, but was confident that he could control the situation.
